Artisanal expertise, creativity and innovation enliven this season’s collection with striking freshness and liveliness. Envisaged through a contemporary lens, the eclectic boldness and spirit of the 1970s are impeccably enhanced by soothing tropical undercurrents. Ornamental geometric forms, chintz florals, psychedelic designs and abstract nuances allude to a charming dynamism while building on the discreetly luxurious nature of Frette linens. The result is a range of products that eagerly beckon a reawakening of the senses while representing the highest standard of luxury, comfort and distinction.
Streaming rays of light, whispering breezes and lush surrounds come alive. **Essence of Jungle** bed linens and cushions become flowing watercolours of magnified palm fronds and tropical floral motifs that create a restrained vibrancy, accentuated by lively overtones.
Unito bath linens are introduced in three new statement tones—vintage rose, saffron yellow and bright cerulean—for a tropical palette that inspires a sensation of idyll in your imagination while enveloping you in unparalleled comfort.
Meticulously crafted jacquards of arabesque patterns flow endlessly throughout Tanger. Featured in monochromatic or contrasting hues, these designs playfully balance the use of positive and negative space and create a sense of silent harmony.
Kapok presents this season’s exploration of natural elements through an innovative use of colours and fibres, bringing abstract qualities and textures to featherlike veining and outspread palm fronds. Gradual undulations of light and dark, permanence and impermanence, express gentle motion while generating a restful vibrancy.
Mogador presents a series of graphically rhythmic patterns of whirling fronds and ornate geometric forms in muted contrasting and monochromatic colours that engage in a subtle dance upon the surface of the fabrics.
Frette To Wear presents a range of women’s and men’s pyjamas, nightgowns and robes made from the finest materials that become a second skin, embodying luxury and comfort while maintaining that touch of understated elegance.
Doppio Ajour is a testament of timeless style and refined versatility - qualities that endure through every age and season.
Feminine, ethereal and romantic, the bridal themed **Bouquet** bedding evokes the magnificence of blossoming flowers as they airily vanish and reappear through the most intricate design work and the faintest of tones to create an intimate and celebratory mood.
Fireworks is an optical symphony of geometries, superimposed designs and intense colours in motion where bold scintillations and dynamic monochromatic patterns give way to an abundance of pulsating visual illusions.
The Ultimate 1,000-thread count bed set in cotton sateen is the epitome of minimally chic sophistication.
Bespoke Service

Frette is a global authority in the realm of luxury linens, crafting exclusive pieces for its discerning clientele. From bed, bath and table linens to cashmere throws and furs, Frette Bespoke offers an exceptional array of tailor-made items, allowing its international clients the opportunity to customise their personal purchases and gifts with their own distinctive style.
